## Message from the Chairman

- Amar Misr Engineering Consultants proudly deliver consistent and sustainable projects while focusing on safety, excellence and commitment.
- We always care about the outer exquisiteness while adhering to safety and quality measures.
- We offer numerous services, constantly tending to the consumer's needs.
- Continuously looking to develop and achieve excellence by investigating innovative strategies to expand our work and cooperate in the evolution of lifestyle.

Amar Misr is considered a firm Engineering consultant in the Middle East, with an honorable record of challenging and inventive projects.

I would like to express my deepest gratitude and appreciation towards our clients for trusting our team's abilities and processes.

I would also like to convey thankfulness to all our employees for their relentless efforts and fellowship which led us to where we stand today. Perceivably, in the near future, AMC will participate in global evolvement as we are not simply providing services, we are reshaping the future.

**Dr Said Abd El Wahab**  
**Chairman**

## About AMC

- **Amar Misr Engineering Consultants Dubai – Egypt (House of Engineering Expertise)** is honoured to present a summarised record of our experience in aims to earn your trust for collaboration and utilization of our consulting services for your current and future projects.
- **Amar Misr Engineering Consultants** was founded in 1990 underneath DEC in the UAE.
- The structure consists of 1200 permanent employees constantly available for the company's affairs (Project managers, specialists in all fields, design and supervision engineers, financial managers and accountants) supported by a highly qualified leadership which allows completion of our variable projects with the highest standards.
- It is important to mention that our company was ranked No. 84 of 4500 top consultants in the Middle East by Dubai SME.
- Additionally, we were ranked as No. 84 of 100 International consulting companies providing designing and supervision services in Hotels, Hospitals, Industrial and Residential fields.

## AMC's qualities

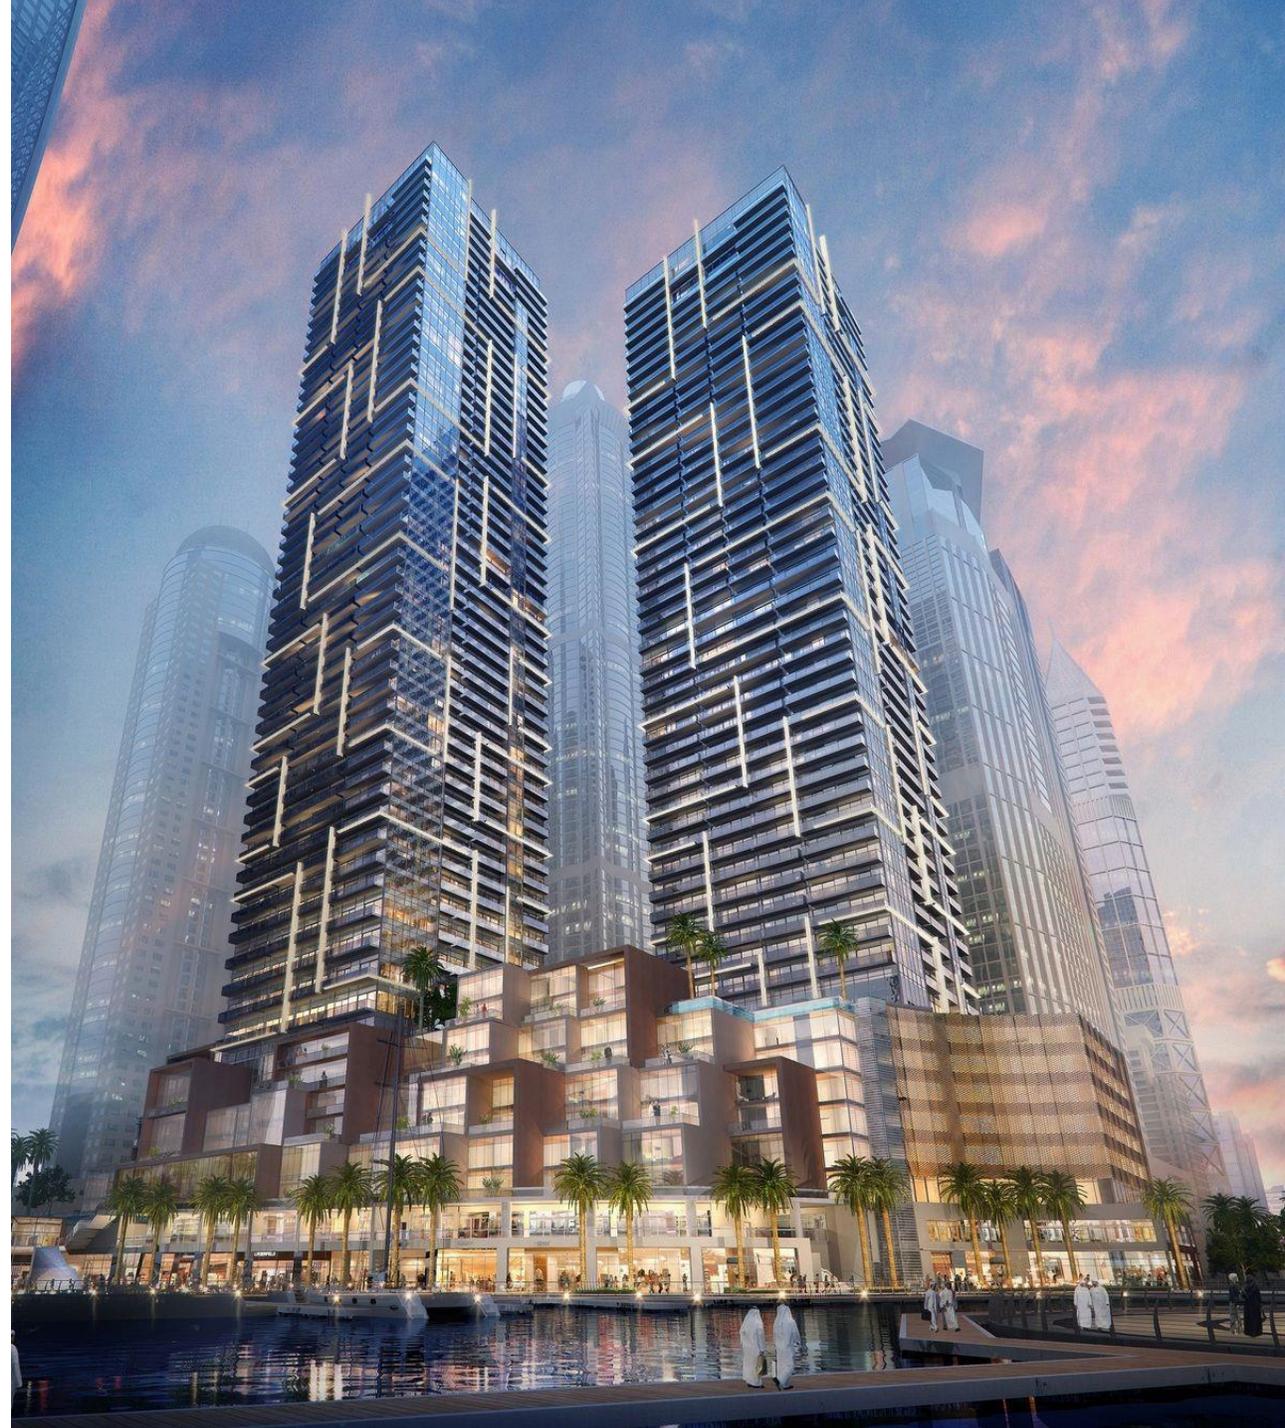

- An extensive experience in Engineering and Project management fields as well as feasibility studies; technical, financial and economical.
- Projects supervision (initiation and completion) including all Engineering phases: designing, planning, tender documents and analysis, contracting with contractors, managing execution and training employees.
- AMC follows the latest strategies and technological techniques in studying, designing, planning, and executing our projects in optimum time frames.
- AMC has a powerful management crew which coordinates site services perfectly and oversees their execution. This crew consists of highly skilled and thoroughly selected Engineers who were professionally trained to handle large projects and manage and sustain their quality.
- The level of work achieved in projects completed by AMC are an indication of excellence
- AMC is globally ranked by Engineering News Record (ENR) magazine 2014/2015 as one of the largest 225 designing companies.
- AMC has achieved numerous awards and certificates locally and globally.
